

PLATE RACK

Cutlery Insert

- modern
- practical
- hygienic
- Size: 900mm
- Origin: Germany

Colour > slate grey grained

Organised

AGOFORM offers a new solution for pull-out systems, making sure that the plates in your kitchen are always conveniently organised and easy to find. Whatever the plate size, our plate rack can accommodate it! The clearly structured arrangement ensures that the desired plate is always ready to hand.

Practical

Straight from the dishwasher into the PLATE RACK – no detour via the drying-up cloth here! The PLATE RACK prevents residual moisture on the plates from running down into the drawers, potentially causing the wood to swell.

Made in Germany

Using the very latest machines and tools, our dedicated staff with years of experience work towards a common goal: to produce the optimum product to meet your application requirements.
