

Superlift

Mobile Clothes Hanger

- adjustable lifting power (**up to 20 kg**), to adapt to the different weights of seasonal clothing.
- tilt of the arms can be adjusted for different cabinet depths
- plastic cover covers the mechanism, which is mostly made of steel, without any visible screws
- Assembly is extremely simple: it uses the System 32 drilling pattern, eliminating the need to drill additional holes in the cabinet side
- Using special sheet metal brackets (optional), it can also be mounted on walls or inside walk-in closets.

TECHNICAL CHARACTERISTICS

- High load capacity, variable from 14 to 20 kg
- Adjustment of the verticality of the arm
- Steel mechanism
- Completely faired: no visible screws
- Greater extraction of clothes from the wardrobe thanks to the inclined position of the arm
- Total fixing on the System 32 drilling
- Arms external to the mechanism to avoid scissor effect on hanging garments
- No need for bumpers to cushion the descent of the arms
- With special brackets, possible wall application
- No oil
