

## HOCHSCHRANK CONVOY LAVIDO

### Pull-out larder unit - Libell

- Accessible from three sides
- Optimal use of space
- Shelves with infinitely variable height adjustment
- Available shelf width > 450mm / 600mm
- Variable interior height > 1900mm - 2000mm

When it comes to storage, order is half the battle. Once you have opened the doors, you need to pull to side out the entire contents of the unit. This innovative system's smooth, quiet running - even when fully loaded - makes it truly remarkable. The shelves seem to float in the air, giving you an overview of their contents from three sides. Well-organized food storage saves you lots of time and money and boosts flexibility.

#### Benefits:

- \* Especially suited to unit widths of 600 mm
- \* Centralised food storage means less walking around
- \* Each individual shelf has infinitely variable height adjustment and can be adapted according to the items stored
- \* Soft opening and closing
- \* Can be used in units with sliding doors too
- \* Can be fitted with «eTouch» electric door-opener

### ACCESSIBLE FROM THREE SIDES

Once you have opened the doors, all you need to do is pull to slide out the entire contents of the unit, which can then be accessed immediately on three sides, from the top shelf right down to the bottom.

This storage solution could be used in many different situations and is suited to a wide range of storage applications: crockery, food and drink, clothes, DVDs and CDs or books could all be tucked away inside.

### OPTIMAL USE OF SPACE

The rounded shape of the elements ensures that every last inch of storage space is put to good use. The unobtrusive magnetic non-slip mats stick to the shelf surface and can be removed for cleaning. Magnetic dividers can be used as a simple, flexible way of further organising the storage space.

### SHELVES WITH INFINITELY VARIABLE HEIGHT ADJUSTMENT

Convoy's shelves have infinitely variable height adjustment, so you can easily adapt their heights according to the items you wish to store in them, whenever you want.

The shelves can be adjusted to any height without altering the position of the hinges, so Convoy Lavido can even be used in standard units with concealed hinges.

= Unit width	450/600 mm
= Interior depth	505 mm
= Interior height	1000-2299 mm
