

- **Dinamico** allows you to have a **sliding peninsula that moves along the entire length of the kitchen** thanks to its **exclusive gola profile**
- This system **creates a practical worktop that is easy to handle**, which can be moved and placed in the desired position to facilitate the preparation of a recipe, as a table for breakfast or for a quick snack.
- And, for those who want even more functionality in the kitchen, **Dinamico+** is the solution consisting of a **gola profile, brackets, extendable mechanism with folding opening and leg bridge**.
- Depending on the need, **Dinamico+** can turn from a practical worktop into a longer and very **comfortable dining table**.
