- Available extension runner width > **530mm**
- Load capacity > **120 - 150kg**
- Variable unit interior depth > **600 - 1010mm**
- Variable unit interior height > **600 - 2000mm**

Soft opening and soft closing

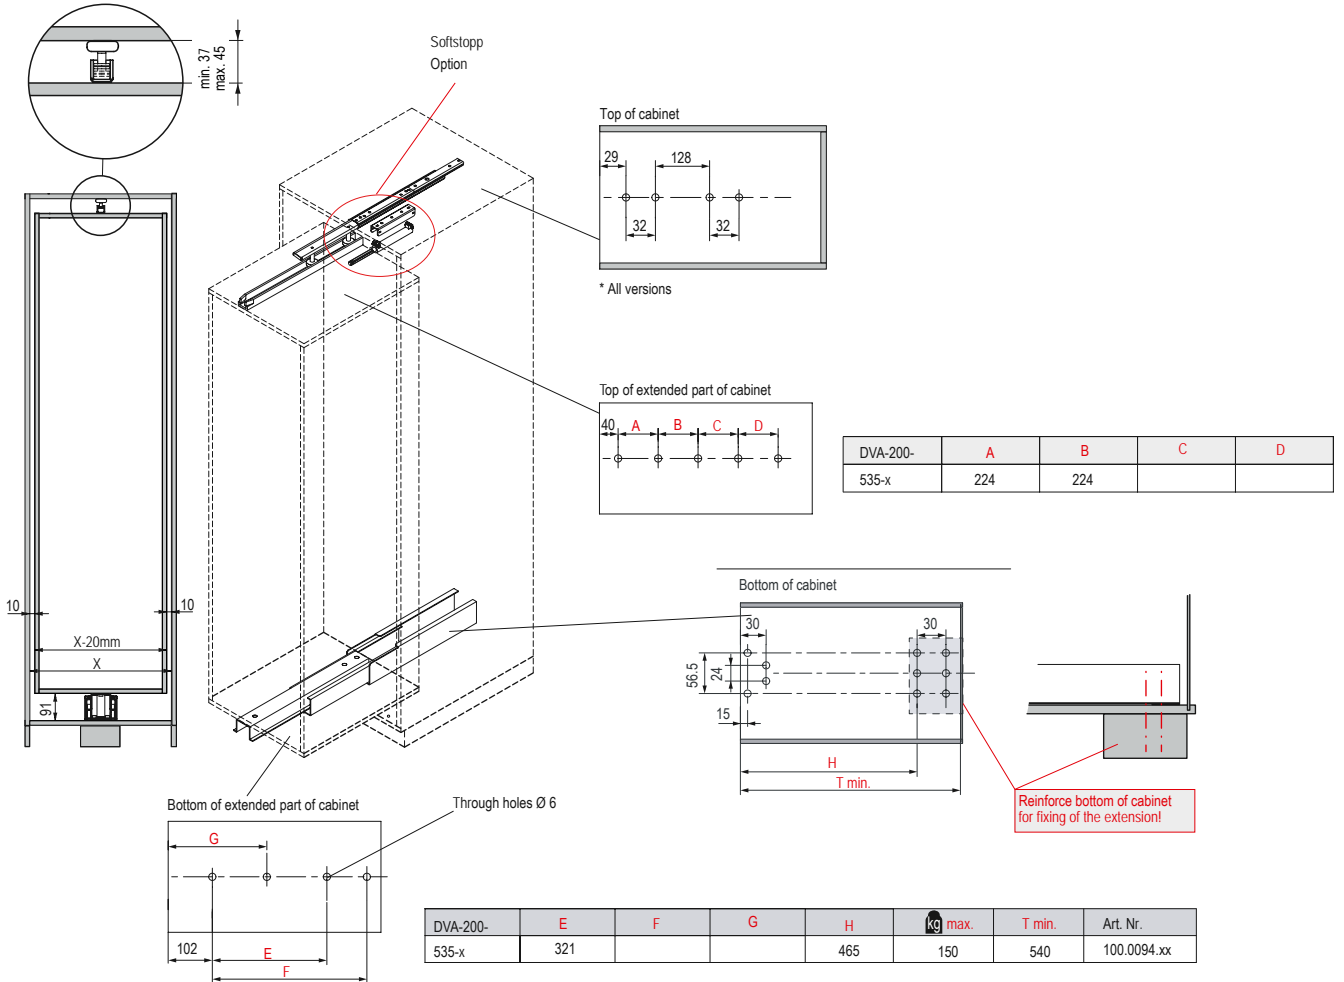

Robust & silent

Full extension runner

The narrow width and high load capacity of the pull-out system for wooden cupboards means that the Hochschrank Box larder pull-out can be used virtually anywhere: in your kitchen, bathroom or elsewhere in the home. With the Softstop soft-closing device automatically stops the pull-out before it reaches its full extension and closes it gently and silently over the last few centimetres.
