# Ergo Master

Built-in worktop waste bin

- Quick and handy
- Easy installation
- Stainless steel with plastic inserts

The built in waste bin for professionals. The Ergo-Master built an even surface with your worktop. The only visible sight is just the round stainless steel lid with the stainless steel handle and the stainless steel ring. The name Ergo-Master is due to its practical and ergonomically handling. No door opening, no bending down. The waste is disposed where it is produced: at working height.

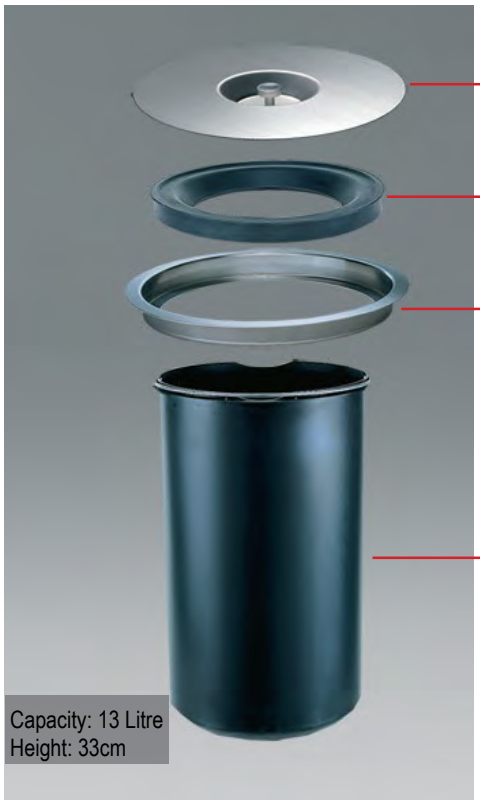
# Ergo Master

Built-in worktop waste bin

Technical

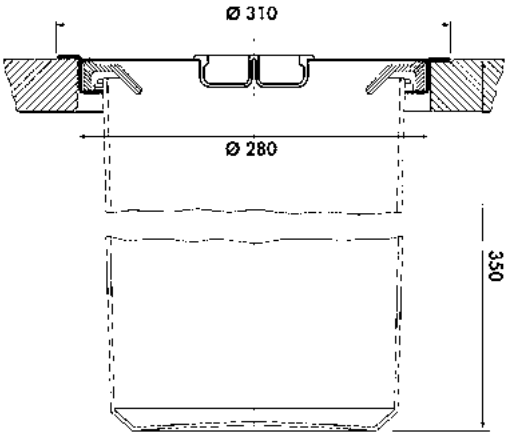


The stainless steel lid with a stainless steel handle closes the Ergo-Master tightly, so no odours can escape.

The soft rubber ring slopes to the centre, so that even wet organic waste can be pushed from the worktop right into the bin.

The stainless steel ring to be mounted into or on the work top and fixed with adhesive. This device holds the bin.

Plastic bin of 25cm in diameter. With a capacity of 13 litres it can be used for organic waste or household waste.



Waste capacity > 13 litres
Installation dimension > 280mm
Outside Ø > 310mm
Container length > 350mm

The stainless steel lid with a stainless steel handle closes the Ergo-Master tightly, so no odours can escape.

The stainless steel ring to be mounted into or on the work top and fixed with adhesive. This device holds the bin.
