Great functionality and design

Soft closing and soft opening

Non-slip mats

Optimum use of space in corner units with hinged doors and with fully extendible storage surfaces. Just open the door and pull the handle for the front shelves to swing clear of the unit. At the same time, the back shelves slide out of the corner to the front of the unit. The front shelves can easily be removed for cleaning and clipped back into place. Thus the shelves and fittings form an integrated whole.
